ABOUT US

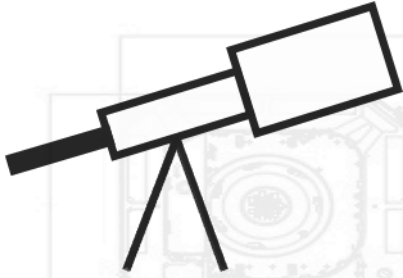

HVAC solution provides complete air conditioning systems to address the needs of the Nigerian market and Africa as a whole. We take into account the state of the economy and seek to provide best solutions to suit your budget and taste.

Not only do we seek to give the best value for money, but also provide products by leading manufacturers in the industry

For over a decade, we have retained our position as a reliable service provider in the HVAC space. Thus far, our commitment and passion for customer service and satisfaction cuts across different application.

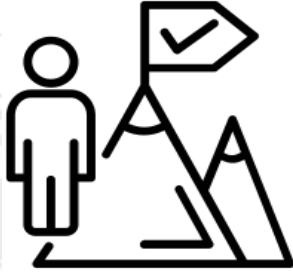

Our products are of superior quality that make great additions to the interior designs of your building due to their stylish and contemporary designs. Our products are all unique in their features and capabilities, hence satisfying your needs.

VISION

- To become the most foremost total engineering solution provider in Africa

MISSION

- Providing excellent service to customers by offering world class products and services, hence fostering the growth and development of employees and creating values to the society

CORE VALUES

- Honesty & Integrity
- Fairness & Openness
- Respect & Honor
- Commitment & Sincerity
- Innovation & Development
- Teamwork & Unity
- Society & Environment
- Excellence

TROX® TECHNIK
The art of handling air

Their range of products includes:

- Grilles
- Linear diffusers
- Ceiling diffusers
- Jet diffusers
- Swirl diffusers
- Round ceiling diffusers
- Sand trap
- Fresh air louvers
- Disc valves
- Non-return dampers
- Volume control dampers
- Variable air volume CAV
- Pressure relief dampers
- Sound attenuators
- Acoustic louvers and Non-return dampers.

DUCTSOX
Redefining Air Dispersion

DuctSox Corporation, headquartered in Iowa, is a manufacturer of custom engineered commercial and industrial fabric air dispersion products for open ceiling architecture, critical environments and underfloor applications.

DuctSox provides custom engineered air dispersion system that meets the exact needs of each space along with the added benefits that come along using a fabric system.

These benefits include lower material and labor costs, no risk of condensation, lower maintenance, noise absorption and aesthetically pleasing.

These innovations make **DuctSox** the perfect air dispersion solution for any space and variety of environments. Applications include food centers, along with industrial manufacturing facilities and much more.

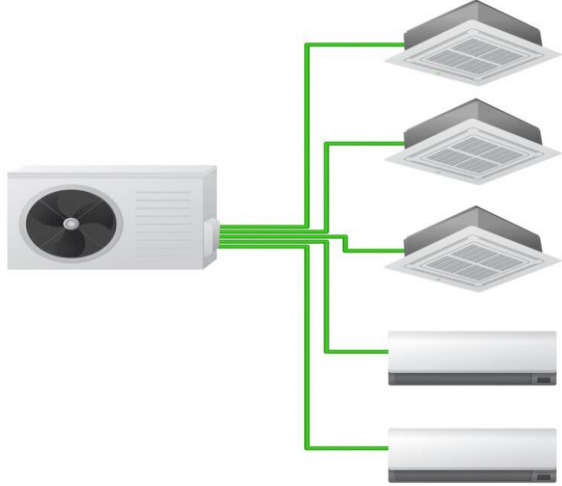

DuctSox has become a proven leader in the HVAC industry with their products accepted within key industry organizations such

as ASHRAE, Underwriters laboratories(U.S, Canada), International code council and many building authorities throughout the world.

We partner with **DuctSox** as their approved distributor in Nigeria to supply and install DuctSox architectural air dispersion solution (fabric duct).
